## TECHNICAL SKILLS

### Programming Languages

**TypeScript** · **JavaScript** · **Python** · **Java** · **C++** · **PHP (Laravel)**

### System Architecture & APIs

**System architecture & design** · **REST API design & integration** · OpenAPI / Swagger · Postman · JWT / OAuth authentication · Microservices fundamentals · Database design (MongoDB, MySQL)

### Full-Stack Development

**React** · **Next.js** · **Node.js** · Express · Tailwind CSS · HTML5 / CSS3 · Responsive UI design

### AI / Machine Learning

**PyTorch** · **scikit-learn** · **RAG** · Deep learning · LLM integration & prompt engineering · Model evaluation · Computer vision

### Data & Databases

pandas · NumPy · SciPy · Statsmodels · **SQL** · MongoDB · MySQL · Matplotlib / Seaborn

### Pipelines & Automation

Data pipelines · Web scraping & ETL · Workflow automation · **FastAPI** · Streamlit

### DevOps, Cloud & Quality

**Docker** · **CI/CD** · **Git & GitHub** · Linux & Bash · Cloud infrastructure · Software testing · Debugging · Agile / Scrum

### AI-Assisted Development

Claude Code · Cursor · ChatGPT · Gemini · AI coding agents

## LANGUAGES

Amharic · English

## INTERESTS

Video games · Reading, especially major AI research · Travel · Hackathons & open source

# Abraham Gebeyehu

## Full-Stack Software Engineer | AI / ML Engineer

Results-driven engineer with a Computer Science degree (**CGPA 3.87 / 4.00**) and a specialisation in **Intelligent Data & AI Engineering**. Strong foundation in software engineering, distributed systems and machine learning. I design and ship **scalable full-stack products with TypeScript, React and Next.js** and build **production-minded ML systems in Python** (PyTorch, pandas, RAG), from raw data and clean API design to a deployed product.

**TARGET ROLES · MID-LEVEL ENGINEER**

**Full-Stack Software Engineer** · **Software Engineer (Mid-level)** · **AI / ML Engineer** · **Backend / API Engineer** · **AI Application / LLM Engineer** · **Data Scientist**

## Core CS Knowledge

**Software Engineering** · **Machine Learning** · **System Design & Architecture** · **Database Systems** · **Artificial Intelligence** · **Data Structures & Algorithms** · **Object-Oriented Programming** · **Distributed Systems** · **Cloud Computing** · **Computer Networking** · **Operating Systems** · **Web Development** · **Statistics & Linear Algebra**

## Experience

### Freelance Full-Stack Developer — 2022 – Present

*Self-employed · Addis Ababa, Ethiopia*

- Build and deploy **full-stack web apps** with **React, Next.js, TypeScript and Node.js**, from UI to database.
- Design and integrate **REST APIs** (Node.js / Express, FastAPI) backed by **MongoDB and MySQL** databases.
- Deliver responsive **Tailwind CSS** interfaces for e-commerce, blogging and business systems.
- Ship with **Docker, CI/CD and testing**, accelerated by AI coding tools (Claude Code, Cursor).
- Add Python automation and AI features: scrapers, forecasting models, Streamlit apps.

### Hackathon Team Member · Data & AI Engineering — May 2026 – Present

*Qiyas Advanced Digital Skills · Intelligent Data & AI Engineering program, Addis Ababa University*

- Delivered a **ride-demand forecasting** project with a 6-member team, from data prep to a demo app.
- Trained in supervised learning, time series, deep learning, LLMs, RAG and agentic AI.

### Computer Science Student & Project Developer — 2022 – 2026

*Admas University · Addis Ababa, Ethiopia*

- Built an **e-commerce platform**, a **medical appointment system** and a **food delivery app**.
- Final-year project: a collaborative platform improving university communication.

## Selected Projects

**Addis_Ride Demand Forecasting** — Python · LightGBM · Time series
Zone-hour demand forecasts with a demo app: **RMSE 8.09, about 19% better than baseline.**

**CoffeeGuard AI** — Deep learning · Computer vision · Hugging Face
Coffee leaf disease detection with confidence scores, explanations and an "I can't tell" option.

**RetailPulse AI** — Python · Forecasting
Demand forecasting and inventory intelligence for Ethiopian retailers.

**Siramap** — AI · Resume analysis
Shows candidates whether their resume communicates suitability for a specific role.

**Web Scraper Toolkit** — FastAPI · Playwright · React · Tailwind
Scraping platform with an httpx / Playwright backend and a React interface.

**Full-Stack Applications** — React · Node.js · MongoDB · MySQL
Collaborative blogging platform, AK e-commerce and other database-backed full-stack systems.

## Education

### BSc in Computer Science — Graduated March 2026

*Admas University, Addis Ababa · CGPA 3.87 / 4.00*

### Intelligent Data & AI Engineering — May 2026 – Present

*Addis Ababa University / Qiyas · Advanced Digital Skills program*
